

# The PRO Series

Performance has never been this compact.

# High-performance water purification

Meet our most powerful water purifier, the Bluewater PRO. Delivering up to 288 liters of water every hour and without the need for a tank, the Bluewater PRO provides a complete ecosystem for purified water. This makes it perfect for; drinking, cleaning and even cooking. Built around our very own SuperiorOsmosis™ technology, the PRO's compact design is the perfect solution for commerci-

al and residential use, promising the highest quality of clean, healthy drinking water. By removing waterborne contaminants such as lead, microplastics, viruses, and pharmaceutical residue, the Bluewater PRO leaves safe and clean water for all types of applications. It is perfect for industries such as; hospitality, laboratories, humidification, and more.

## Applications

- Brackish water
